7 - Please identify what you consider to be the strengths of this course.

Response Rate	3/18 (16.67%)

• There is a lot to learn in a short amount of time but the structure of the course doesn't make it too overwhelming

• none

• The strengths are allowing students to participate together

8 - Please identify areas where you think this course could be improved.

Response Rate	3/18 (16.67%)

• Maybe give more assignments than just a midterm and a final

• none

• I believe the course needs a little more tweaking. He is a great professor, but the teaching style was hard for me to learn. I believe studying after class ends will achieve a higher grade; however, I want to learn more in class than I do studying.

9 - What advice would you give to another student who is considering taking this course?

Response Rate	3/18 (16.67%)

• Go to class everyday

• take lots of notes and engage in class

• Studying is the key. I will alert the next student that the tests are fill in the blank.

10 - The instructor made course expectations clear (e.g. objectives, policies, and assignments).

18 - What suggestions do you have to improve the instructor's effectiveness?

David Miller

Response Rate	3/18 (16.67%)

- The PowerPoints can be a little hard to follow sometimes because there aren't usually words it is just a picture

- none

- I suggest just a little more tweaking of the material. Maybe doing small quizzes in class that go over the course material that is going to appear in our exams. I feel like some exam questions took me off-guard. I believe that the in-class reviews would be very beneficial.
