7 - Please identify what you consider to be the strengths of this course.

Response Rate	2/24 (8.33%)

- I think that Prof. Miller's feedback and time in which he repsonds to your questions was really great and helpful in this class.
- Student-led discussions.

8 - Please identify areas where you think this course could be improved.

Response Rate	2/24 (8.33%)

- 1) I think that by making research methods a pre-requisite for this class would allow for more to be taken away from the class as well as allowing everyone to feel included. 2) I think that perhaps a way for more people to talk in the class would be to have short weekly submission before class giving peoples opinions about what they read. This may in turn at least to some extent ensure that more people at least know what they are discussing and have more involvement in class.
- Maybe less on X and Y hypotheses and more on analysis and editorial views.

9 - What advice would you give to another student who is considering taking this course?
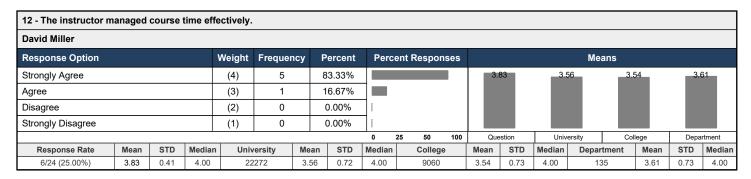

Response Rate	3/24 (12.5%)

- I would recommend before taking this class to take research methods before taking this class as you will get more out of it and it would also help in the paper you will have to do in this class.
- DO THE WORK, often and early!
- Read the articles and you'll be fine.

10 - The instructor made course expectations clear (e.g. objectives, policies, and assignments).
